

# FOOD LIFELINE

FEEDING HOPE FEEDING WESTERN WASHINGTON

***Speak up  
and help end  
hunger!***

## **FOOD LIFELINE ADVOCACY TEAM**

***A unique volunteer experience for those who want to do more***

Food Lifeline's Advocacy Team is looking for talented, committed individuals like you to help spread the word about Food Lifeline and hunger in our communities.

Being a part of this team requires a minimal time commitment, but one should be open to being available at different times of the day. Representing Food Lifeline at agency fairs, special events and workplace giving campaign events, you would be the face of Food Lifeline, answering questions and reaching out to others on our behalf. You would also get the chance to take part in legislative action and take steps in your community to work against hunger. Advocates would have the opportunity to meet together regularly to learn more about hunger issues and discuss action plans for change.

If you are passionate about ending hunger in Western Washington, donate your time and outgoing personality to Food Lifeline as a member of the Advocacy Team.
